POLICY DEVELOPMENT, ADOPTION, AND REVIEW

The development and adoption of policies that govern the School District is one of the School Board's most important functions. Board policies establish the goals, direction and structure of the district under the authority of applicable statutes and regulations. In addition to policies required by state and federal laws and regulations, the Board adopts policies to provide direction to the Superintendent and other administrators in the management of the district, to guide the education program, and to provide clear expectations for school staff, students and parents.

Board policies are intended to provide the framework for district operations and the educational system. In general, the operational details as to how policies will be implemented are contained in administrative procedures developed by the administration. However, the Board may adopt administrative procedures concerning its own operations, or when an issue is of sufficient legal importance to warrant a Board-level procedure.
